

# Welcome to Orientation on IYCF KAP Assessment

Organized by the Assessment and Information Management Technical Working Group (AIM-TWG) of Myanmar

# Let's have a quick round of introduction

- Your name
- Your Position
- Organization
- Working base
- Do you have any responsibility related to IYCF programme implementation or monitoring/ evaluation?

# Objective of this orientation

- The main objective of this three days orientation session on IYCF KAP Assessment is to orient participants from different humanitarian organizations on the basic of IYCF KAP surveys as well as to equip partners with different tools and technics to improve the quality of data/ information being collected in the field.

Please be noted that, this is neither a training on IYCF full packages nor other comprehensive survey methodologies like SMART or SQUEAC . Due to the remote and short nature of this orientation session, we shall focus on some of the important and practical aspects of a KAP survey focusing on IYCF indicators. We shall also try to do practices and demonstration on developing a KAP survey methodology, data collection process and analysis tools.

# Orientation Methods

- PowerPoint slides
- Guided demonstration and practice
- Individual and Group work
- Self study

# Session Plan
