January 26, 2023

ZOOM LANGUAGE INTERPRETATION

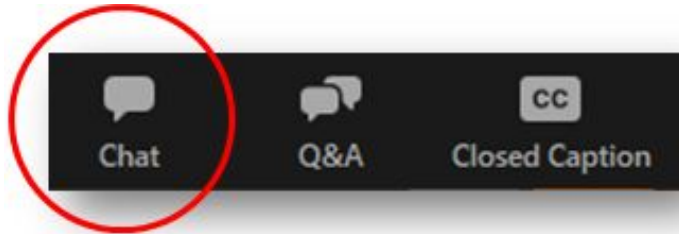

English	Click the Interpretation icon to have the option to hear the meeting in French, Spanish, or Arabic. To hear the webinar only in French, Spanish, or Arabic, select Mute Original Audio.
Español	Haga clic en el icono de "interpretación" para escuchar el seminario web en español. Para escuchar el seminario web sólo en español, desactiva el audio original.
Français	Cliquez sur l'icône intitulée "interprétation" pour avoir la possibilité d'écouter le webinaire en français. Pour écouter le webinaire uniquement en français, vous pouvez désactiver l'audio original.
عربي	انقر فوق رمز الترجمة للحصول على خيار الاستماع إلى الاجتماع باللغة العربية. لسماع الندوة باللغة العربية فقط ، كتم الصوت الأصلي.

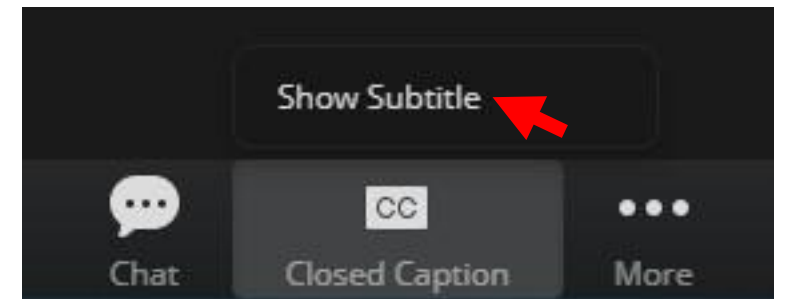

ZOOM MEETING REMINDERS

- If at any point during today's webinar you are unable to hear the speakers, please make sure you've connected your audio by selecting the headphones icon.

- Please send a message to *Everyone* in the chat box to introduce yourself, send in your questions, or ask for support during today's webinar.
- Closed captioning in English has been enable for this meeting, to view the live English subtitles on your screen, click on the CC icon and select to *Show Subtitle*.
- Finally, please note that this meeting is being recorded.

RECAP OF DAY 2

Wasting Scale Up

BHA Nutrition Supplemental Progress Update

Day 3

UNICEF, USAID/BHA and WFP

OUTLINE

- Wasting landscape
- Overview of the wasting scale up BHA nutrition supplemental
- Progress update
 - i. Principles
 - ii. Pipelines
- Challenges, lessons learned and next steps

BACKGROUND

Increased food insecurity and wasting due to:

- Covid
- Concurrent drought, climate shocks
- Ukraine- food price crisis

Global Action Plan on Child Wasting and global leadership

- Renewed commitments to increasing the scale of wasting treatment
- Specific wasting technical working groups aimed at examining
 - Simplified approaches, costing, scale, capacity

OVERVIEW OF BHA NUTRITION SUPPLEMENTAL

Funding

- 200 million to UNICEF (through the global award)
- 84 million to UNICEF (through country awards)
- 217 million to WFP (through country awards)

Funding for commodities and program costs

COUNTRIES WITH POPULATIONS IN IPC 4 AND 5

Afghanistan

Haiti

Ethiopia

Kenya

Madagascar

Somalia

South Sudan

Sudan

Burkina Faso

Chad

Mali

Niger

Nigeria

Yemen

WASTING PRINCIPLES

- Scaling up the services for the early detection and treatment of child wasting
- Supporting the implementation of the existing protocol at scale
- Ensuring access to RUTF and therapeutic milk for SAM and RUSF for MAM
- Prioritizing RUTF for SAM, but if enough quantity use it for MAM in the absence of RUSF
- Transparent and inclusive discussion consultation of any longer-term shifts concerning national protocol
- Additional support to families and households with wasted children

SUPPLY CHAIN WORK

- Routine work with suppliers, pricing, ingredients
- Suppliers meeting in August for production scale up
- A coordination is in place between UNICEF and WFP to improve SNF visibility (Dashboard: forecast, demand/capacity)
- Pre- financing arrangement (Gates/UNICEF)

West Africa UNICEF Financial expenditure

Country	Amount spent (USD)	Balance (USD)
Burkina Faso	4,406,097 (80%)	1,113,607 (20%)
Chad	9,722,874.73 (80%)	2,477,125 (20%)
Mali	6,505,583 (68%)	3,033,792 (32%)
Niger	8,765,243 (82.5%)	1,857,592 (17.5%)
Nigeria	8,853,342 (39%)	13,711,505 (61%)

Country update UNICEF: Mali

Implemented/ongoing

- ✓ **105,737 cartons of RUTF** purchased, of none received but 24,615 cartons underway and currently at Dakar.
- ✓ The current award will contribute to about **49% of the 2023 RUTF pipeline.**
- ✓ Therapeutic milk, medicines and anthropometric equipment procured.
- ✓ Establishment of IYCF support groups in Kaye.
- ✓ Support to functioning of mobile clinics in Gao and Tombouctou with NGO IEDA Relief.

Moving forward

- Establishment of 2 new partnership agreements with AMCP and World vision international for prevention, early detection and treatment of child wasting at community level.
- Training of community health workers on IYCF.

Country update WFP: Niger

Implemented/ongoing

- ✓ **163.7 MT of RUSF** purchased and on the way.
- ✓ The current award will contribute to **about 16% of RUSF pipeline.**

Moving forward

- ✓ Continuous discussion and coordination with UNICEF on the scale up plan

CHALLENGES

- Supplier capacity to scale up and have the correct funds/equipment/staffing
- Last mile delivery
- Pre-positioning linked to expanding admission criteria/simplified approaches

LESSONS LEARNED

- Centralized procurement
- Key to success is joint planning and mapping out coverage
- Forecasting by partners
- Issue of discharge criteria and links between continuum of care
- Agreements between partners and UNICEF and WFP

NEXT STEPS

- Review/revise the principles
- Ways of working between UNICEF, WHO, WFP in complex emergencies for 2024/25
- Continue financing, pre-positioning, forecasting, supplier engagement and improving last mile delivery
